

Dear Parents, Families, and Community Members:

In pursuit of our vision to transform Arkansas to lead the nation in student-focused education, the Arkansas Department of Education - Division of Elementary and Secondary Education (DESE) is releasing the 2020 School Report Card.

The newly released and enhanced 2020 School Report Card is now available on <https://myschoolinfo.arkansas.gov/SRC>

The 2020 School Report Card is designed to provide a way to communicate, encourage dialogue, and help inform decision-makers within each school community. By reviewing the data, schools and districts can update their plans for school-level improvement and district support. It is an opportunity for all stakeholders to participate in robust conversations about how to meet the needs of all students.

The 2020 School Report Card includes several points (modules) of information. These are intended to provide more detailed information about your school(s), which include the following:

- Overview
- Achievement - Assessments
- Growth
- English Language Proficiency of English Learners
- SQSS (School Quality and Student Success)
- Achievement - NAEP
- Graduation Rates
- College Readiness
- School Performance
- School Environment
- Retention
- Teacher Quality
- School Expenditures
- Alternatively Assessed
- Crosstab - ACT Aspire
- Crosstab - Graduation Rates
- Crosstab - Growth
- Long-term Goals

By hovering over the module title, you can learn more about the data in each module. You may also click on the definitions button at the top of the report, or click on FAQ at the top of the webpage (see the red bar).

Please notice that the modules have an assigned color to indicate the level of data available. The red indicator means that a module is awaiting data. The yellow indicator means that a module has some data, but is awaiting more data to be considered complete. The green indicator means that the module has the data needed to be complete, and it has been finalized. The orange indicator means that data are unavailable due to COVID-19. To learn more about the impact of COVID-19 on data reporting, please view the report entitled “[Impact of COVID 19 on 2020 State and Federal Accountability and Reporting](#).” All modules will be finalized by April 15, 2021.

The goal of the 2020 School Report Card is to spur constructive and positive conversation between educators, parents, students, and the community about continuous school improvement. School districts need parental and community support to help students achieve their full potential. It will take hard work, commitment, and cooperation to help our schools provide student-focused education that will help every student achieve success.

After viewing the School Report Card, please use the following link to provide us with your feedback and suggestions: <https://www.surveymonkey.com/r/HVQVQ8Y>

Sincerely,

Johnny Key
Secretary of Education
